and at *BATH*, and *TUNBRIDGE-WELLS*;

Esteem from many of the **NOBILITY** and **GENTRY**,

None of which are found in any other Shop in *ENGLAND*.

The Richest Italian Flowers, of the same fragrant agreeable Smell as the Natural Sorts, when in Bloom.

FROM INDIA;

THE true Essence of Roses from Persia, (a scarce Article.) yet been discovered of so delightful a Quality, 10s. 6d. a Bottle.
It is a most delightful, fragrant, and agreeable Smelling-Bottle; and for Spunges in Eggs, Trinkets, &c. nothing bath Dipping the End of a small Pin in the Bottle, and wiping it in a Handkerchief, is sufficient to perfume the whole.

N. B. The under mentioned Goods are prepared by no other Person in England.

Their Imperial Milk of Roses, prepared from the above Essence of Roses and the Four Cold Seeds, &c. which gives Way to no other whatever, either in private or public Use. There is no Roughness or Redness on the Skin it will not remove; and it softens, smooths, and whitens the Skin to a most delicate, and far greater Degree, than can be conceived from a Composition entirely vegetable, and is equally as innocent as Rose-Water. This Milk of Roses is not only the most friendly Preserver and Clearer of the Skin to Ladies, but is also of infinite Use to Gentlemen after Shaving, especially to those whose Faces are apt to be rough and fore after that Operation. Price 3s. 6d. a Bottle.

Where also are Manufactured and Sold,

Their true prepared French CHICKEN GLOVES, for making smooth and white the Hands and Arms, at 5s. a Pair, first approved of in Vienna and Paris: And it is an undoubted Truth, that for the Hands and Arms, made rough or chaped with Wind, or Sun, nothing has yet appeared to have the good Effect as these Gloves, which have been worn by some of the greatest Princesses in Europe, and may be worn at Times, when most agreeable to the Buyer, for a few Hours, or all Day, as any other Gloves: They never yet failed of fulfilling the Desire of the Purchaser. The singular Name and Character of these Gloves induced some to think they were made from the Skins of Chickens; but, on the contrary, they are made of a thin, strong Leather, which is dressed with Almonds, Sperma Ceti, &c. without either Lime, Alum, Salt, or Mercury, in the Composition: And from the softening balmy Nature of these Gloves, dress'd as above, they soften, clear, smooth, and make white the Hands and Arms, so as to give entire Satisfaction. And why the German Ladies gave them the Name of Chicken Gloves, is from their innocent effectual Quality of making the Hands and Arms white, clear, soft, and smooth.

N. B. The balmy softening Quality will remain in these Gloves for three or four Months, in constant Wear. Each Glove is signed on the Inside of the Top, **R. WARREN**.

* * Ladies sending for them, are humbly desired to send an old Glove of the Size.

†† None but Glovers exclaim against the above Gloves, the Reason whereof is obvious to every Capacity.

And it is plain and evident, that one Bottle of *Warren's Double Refined*

Quintessence will do much more Service, and go much further, than a Pint of the best Lavender Water ever made. Price 1s. 6d. a Bottle. Larger Bottles at 3s. and 6s. each.

WARREN'S Opiate for cleansing and preserving the Teeth and Gums, is certainly of the most established Reputation of any Thing
of the Kind. It eradicates the Scurvy out of the Teeth and Gums, unites the Gums to the Teeth, and gives an agreeable white
Lustre to the latter; takes off that pale livid Colour the Scurvy brings on the Gums, and gives them a lively blooming Red; pre-
serves both to old Age; is of a delicate Taste and Smell; and as its Composition resists Putrefaction in the highest Degree, it will
keep in any Climate for many Years. A sure Preservative for sound Teeth, and preventing decayed ones from growing worse.

Note, A Bottle of Compound Essence of Myrrh, given, *Gratis*, with the above Opiate.

N. B. Be careful not to use Tinctures composed of Vitriols, which are prejudicial to clean the Teeth, and soon bring them to Decay.

The celebrated DEVOLLOONS from Naples, at 5 s. 3 d. at 10 s. 6 d. and One Guinea a Bottle.

N. B. Just landed from Dulac in Paris, an exceeding fine Sort of ROUGE.
